Needs
Your
Opinion

t is always important for me to know your opinions on various issues related to state government. Each of us has a unique perspective on how to solve the obstacles facing all of us. That is why, as your State Representative, I want to hear from you.

## I WANT TO HEAR FROM YOU!

Each year, legislators send out surveys with pattern questions. Last year, your responses provided me with many new ideas. However, this year I want to try something different.

Rep. Van Haaften

## WHAT IS ON YOUR MIND?

The page on the right is blank. I want you to tell me what is on your mind!

Do you have an opinion about the budget passed by the Republican majority in both the House and the Senate? What would you propose to help reduce the increases in property taxes coming our way as a result of the budget passed by the majority last year?

Are you concerned about our new Governor's proposals to privatize prisons, highways and other state agencies? Should we increase state revenues by legalizing video poker machines in restaurants and bars?

Should Vanderburgh County combine its city and county governmental bodies into one governing body? Should I-69 be a toll road? What steps can be undertaken to provide affordable healthcare to Hoosiers? Are we doing enough to promote education in our communities? Can we do more to combat methamphetamine and other drugs in our communities?

What are you in favor of? What are you against? What ideas do you have that maybe no one else has considered? Let me know what is on your mind!

## YOUR OPINION COUNTS

I want to hear your thoughts, ideas and concerns. You possess many thoughts and ideas beneficial to your neighbors and all Hoosiers. Your opinion counts and I want to hear it. Good or bad, complaint or compliment, let me hear from you!

Your thoughts and ideas will be shared with my fellow legislators. By sharing your opinions, we can work together to move Indiana forward.

I look forward to hearing from you and as always, I want to thank you for the privilege of serving you.
